Class 3

Mrs Brown needed eight cups of milk. She took her cows to Saturday market. She collected 2L of milk for you. She said Mr. Brown divided the 2L of milk into eight cups of 250ml each. Which was enough for buying her cows.

Class 4

Long division word sums. \div X - B, R.

- 1) There are 136 students at Zaya. 4 students are in each class. How many classrooms are there?
- 2) Ms. Robyn brought 442 chickens to school. She divided them equally among 7 students. How many chickens did each student get?
- 3) Our bookshelf has 156 books. There are 7 shelves. How many books are on each shelf?
- 4) 8 people paid 124 red for Zaya's festival. How much did each ticket cost?
- 5) 368 fish were caught on Ulyana's boat. If each person caught 2 fish, how many people were on the boat?
